

INTRODUCING... Val Williams

THE SNAKE LADY

Education & Fun for Everyone!

The Snake Lady will take you on a trip around the world showing you animals found as close as your own backyard to as far away as Australia!

Mrs Val Williams, the kid proclaimed “Snake Lady”’s dynamic Displays & Presentations are hands on, interactive, thoroughly educational and of course fun!

You can expect to see and learn about a variety of animals including many species of Snakes, Lizards, Turtles, Tortoises, Treefrogs, African Bullfrogs, Salamanders, Tarantulas, Hissing Cockroaches, Giant Millipedes and many more!

Never has teaching our children (and grownups) about saving both our planet and the incredible creatures that roam it, been more important. A Snake Lady Display or Presentation will do just that.

Her one of a kind, fun and interactive approach to Eco-Education has been a hit with kids 3 to 103 for over 40 years! It is this very approach that has won her acclaim and awards working with people of all ages including the visually impaired, special needs, and autistic children.

These presentations have been given for Schools, Fairs & Festivals, Scouts and Guides, Seniors Residences, Company Parties, Birthdays, Libraries, YMCA's, and all kinds of Community Events.

So why not consider her one-of a kind Presentation or Display for your next event ! Your guests will have a once in a lifetime opportunity to meet her unusual and very special animal friends!
